

Key Stage 2 Curriculum Overview – PSHE

Ofsted report on PSHE – inspection dated 11th and 12th July 2023

Leaders have planned the personal, social, health and economic programme well. Pupils learn how to maintain healthy lifestyles and relationships. The programme helps them understand different cultures and lifestyle choices. The careers programme embeds aspiration and prepares pupils for the next phase of education.

Curriculum Intent

We aim to develop students into well-rounded, caring and aspirational people who know and understand their rights and responsibilities in their local, national and global communities.

Implementation:

PSHE is taught in one 60-minute lesson per week. The curriculum is divided into 3 main areas of study: Relationships, Living in the Wider World and Healthy Living. Careers is built into the PSHE curriculum and students in all year groups benefit from regular careers assemblies. The Holywell values and restorative practices are embedded in the curriculum and teaching methods. Teachers create a safe and caring environment in which students can explore their thoughts and feelings with growing confidence, encouraged by both their peers and teachers.

In addition to the weekly PSHE lessons, all students will participate in the PSHE Enrichment Day.

- Year 5 theme is safety; including fire, water, road and bike safety and first aid.
- Year 6 theme is mental well-being and stress management.
- Year 7 theme is celebrating diversity and British values through sports and the arts.
- Year 8 theme is careers.

Further enrichment of the PSHE curriculum is provided by whole school support of the following national initiatives, during assemblies and form times: National Career's week (March), Children's' Mental Health week (February) and Anti-Bullying week (November).

Holywell School Curriculum Overviews

Term	Year 5	Year 6

Careers links	Challenging gender stereotypes in careers.	Website designer, journalist, digital content creator, digital marketing, fraud investigator.
<p style="text-align: center;">Spirituality in the curriculum</p> <p>The PSHE curriculum teaches students to respect and value themselves and others. It does this through developing self-awareness and by exploring the components of healthy relationships. It teaches children how to look after their physical and mental wellbeing. The ‘Living in the Wider World’ strand of the curriculum explores how our society works and encourages students to think beyond the present. The RSE part of the curriculum was planned in line with the ‘Goodness and Mercy’ resource. We support the school vision of ‘being the best we can be in community’. An example of how we do this is by raising student’s aspirations through regular careers assemblies and by encouraging them to look at their skills and qualities and how to develop these further.</p>		
<p style="text-align: center;">How we track your progress</p> <p style="text-align: center;">Summary for parents on how the students’ progress is measured</p> <p>Linking to the progress descriptors all students’ progress is tracked through the work they produce and contribute to in class, homework, end of unit assessments and in class assessments/quizzes.</p>		
<p>Parents/Carers can support their child by: Encouraging their child to take an interest in current affairs by watching Newsround and discussing stories which are of interest.</p>		
<p style="text-align: center;">Sustainability within the subject Year 6 Caring for our world unit</p> <p>Caring for the environment: positive and negative effects of human activity on the planet; plastic pollution; climate change; food waste; the oceans; sustainability and recycling.</p>
